Help Aquarion Water Company Find Connecticut's Environmental Champions

The 2011 Aquarion Environmental Champion Awards

Across our great state, thousands of volunteers devote endless time and energy to protecting and restoring Connecticut's natural resources. And now you can help Aquarion recognize their efforts by nominating an **adult, student, or business or non-profit organization** for the Aquarion Environmental Champion Award.

Awards will go to Champions who've spearheaded successful volunteer projects that have improved and protected our state's natural resources – its water, air, soils, and plant and wildlife communities. Winners will be named at a special event on June 4, 2011, at the Connecticut's Beardsley Zoo.

So nominate someone today (and we welcome self-nominations).
And help Aquarion provide some green to Connecticut's greenest volunteer efforts.
Nomination Deadline: May 2, 2011.
