**ADDENDUM NUMBER 2**  
**(for Plans/Specifications dated May, 2013)**

**PROJECT: Tashua Knolls Golf Course, Bunker Renovation Project,**

The purpose of this Addendum is to inform all bidding contractors of the following changes (additions and/or deletions) or clarifications to the Contract Documents:

**Clarifications to the General Golf Course Specifications:**

1. Copy of Bidders General Contractors License shall be submitted with bid.
2. The Bidding Contractor shall incorporate any costs associated with Project Mobilization as a percentage of the existing line items.
3. Contractor shall be responsible for fertilization of all areas to be grassed. Per FINISHING, pg 31:

Generally the fertilizer shall be a complete commercial fertilizer of high quality grade. It shall be free flowing with uniform particle sizes and suitable for turf grass applications. The nitrogen source shall be either a methylene urea or polymer encapsulated urea base. The fertilizer shall be delivered to the site in bags or other convenient containers with labeled proof of conforming to applicable state fertilizer laws with the name, trademark and warranty of the producer. Fertilizer rates and specifications will be set according to the soil analysis on a hole-by-hole basis and shall be supplied upon completion of the soil analysis.

4. Tee Construction shall NOT include interior subsurface drainage.
5. If the base bid work requires quantities in excess of those called out on the bid form, the OWNER is responsible for furnishing excess quantities.
