FOR IMMEDIATE RELEASE

JUNE 20, 2017

SEVERAL VEHICLES ENTERED OVERNIGHT, TWO STOLEN

Residents in the area of lower White Plains Road and Beardsley Parkway began calling police as they awoke last Friday morning to find that their vehicles had been rummaged through and personal items stolen. In total nine vehicles were affected, two of them were stolen. All vehicles were unlocked when they were entered by the thieves.

Stolen in Friday's crime spree was a 2013 Toyota and a 2005 Honda, both of which were later recovered in the north end of Bridgeport. In addition to the stolen cars, purses, credit cards and other property was also taken from several other unlocked cars. Police have linked these thefts to a group of juveniles who are moving from town to town and through different neighborhoods overnight, avoiding police patrols.

Police continue to caution area residents to always lock their vehicles when they are left parked outside, and to call police to report any suspicious activity especially in the overnight hours
