Application 23-41

ACI Castello Property LLC

Permit approval for restoration/
reconstruction of existing residence.
landscaping including replacement of
existing driveway & front walk within
a regulated area at 201 Old Dike Road.

The applicant, Thiago Silva and his landscape architect Aris Stalis addressed the Commission. The requirements required by the town were received by them. A surveyor has been hired however it is not scheduled until approximately 3 weeks from now. The IWWC Agent requested that the plan and application accurately reflect the amount of fill to be brought in seeing there appears to be a discrepancy in the amount, if any. It was recommended that they work with an engineer to have this clarified. The erosion control measures that are there now are in need of immediate attention before the upcoming storm this weekend and is required to be fixed before then. The Commissioners also agreed and require the applicant to fix this and to not proceed with any work on the site until the application has been approved. Attorney Cordone advised the applicant that remedial measures are to be in place immediately or citations and/or violations will be pursued. The Commission wants the oil tank removal records to be included with the application. The intermittent stream by the wall needs to be flagged.

MOTION (Verespy) SECONDED (DeFeo) to CONTINUE application to next scheduled meeting on February 6, 2024.
