## **Universities and College Talent Outreach**

Explanation:

This chart contains either the direct contact for questions and concerns per University Career Service or the main lines of communication. Each College or University has a system for internships and job offers, which includes either a site to register on or a form to fill in which they will register said opportunities. What can be concluded is that: to start a partnership includes registering an account and managing the dates (if provided) of fairs/ walk-ins. Also, feels for certain involvements (for some universities) can be found on their main site accordingly.
